		Day 1 June 11, 2018 N	Nonday
08:00-08:30	Registrations		
08:30-09:00		Opening Ceremony	
	Keynote Forum		
09:00-09:10	Introduction		
09:10-09:50	Personalized healthcare services and inn	ovative tools to manage chronic c	lisorders and cardiac failures to secure health
	Sergey Suchkov, Sechenov University, I	Russian Federation	
09:50-10:30	Nationwide registries associated with ca	rdiovascular medical devices in Jo	apan
07.00 10.00	Nobuhiro Handa, Pharmaceuticals and	Medical Devices Agency, Japan	
			Group Photo: 10:30-10:35
			Network & Refreshment Break: 10:35-10:50
Sessions:			
			Session Introduction
Session Chair:	To be updated soon		
Session Co-Ch	air: To be updated soon		
10:50-11:20	The internal elastic membrane (IEL) – and	atomic determinant of atherosclere	osis
10.30-11.20	George E Green, St. Luke's/Roosevelt H	lospital, USA	
11:20-11:50	Factors associated with heart failure rea	dmissions from skilled nursing faci	lities

11:50-12:20	Heavy metals and atherosclerosis: One step forward in cardiovascular prevention	
	Sergio Mejia Viana, St Bernard's Hospital, Gibraltar	
12:20-12:50	Geomagnetic produce trophic effects on myocardium	
12.20-12.50	Luis Martínez Millán, University of the Basque Country, Spain	
		Lunch Break: 12:50-13:50
10 50 14 50	Special Session on: "Diastology: Pathophysiology of relaxation and filling pressure"	by
13:50-14:50	Fabiola B Sozzi, University Hospital Policlinico of Milan, Italy	
	Aortic valve diseases in pregnancy	

14:50-15:20 Sibel Catirli Enar, Turkiye Hospital, Turkey 15:20-15:50 Propofol versus midazolam/fentanyl for elective electrical cardioversion Višnja Nesek Adam, University Hospital Sveti Duh, Croatia Security and clinical effectiveness of ticagrelor in acute coronary syndrome without ST elevation: Results in the daily practice in an 15:50-16:20 emergency service Joaquín Velilla Moliner, University of Zaragoza, Spain

Network & Refreshment Break: 16:20-16:35

Peripheral nerve injury due to hypertension is aggravated by diabetes 16:35-17:05 Valéria Paula Sassoli Fazan, University of São Paulo, Brazil Role of FoxO1 and apoptosis in pulmonary vascular remolding in a rat model of chronic thromboembolic pulmonary hypertension 17:05-17:35 Chaosheng Deng, First Affiliated Hospital of Fujian Medical University, China

Cardiovascular diseases risk factors prevalence and awareness: pharmacists` role in modifying these factors 17:35-18:05

Iqbal M Fahs, LIU University, Lebanon

Shade Akande, Stony Brook Medicine, New York

Panel Discussions

Day 2 | June 12, 2017 | Tuesday

	Keynote Forum
08:50-09:30	Progress in the treatment of end-stage heart failure
	Roland Hetzer, Cardio Centrum Berlin, Germany
09:30-10:20	Heart failure in athletes – epidemiology, pathophysiology and diagnostic management
09:30-10:20	Robert Skalik, Wrocław Medical University & Leszno Medical Centre Ventriculus, Poland
Sessions	

Session Chair: To be updated soon

Session Introduction

10:20-10:50	New perspectives in pediatric cardiology and cardiac surgery
	Athos Capuani, Private Organization, Italy Network & Refreshment Break: 10:50-11:05
11:05-11:35	Aortic root reconstruction using neocuspidization with prepared autopericardium
11:35-12:05	Roman N. Komarov, Sechenov Moscow State Medical University, Russia The hypothesis of endovascular occlusion of the internal mammary arteries to treat patients suffering from refractory angina Marca Bisishà San Camilla Fodonici Hamistal Mah.
2:05-12:35	Marco Picichè, San Camillo-Forlanini Hospital, Italy The multidisciplinary management of a cardiothoracic patient: a case of infective endocarditis complicated by haemorrhagic stroke Karen Chui, UK
2:35-13:05	Echocardiographic diagnosis of diastolic heart failure
	Fabiola B Sozzi, University Hospital Policlinico of Milan, Italy Lunch Break 13:05-14:05
4:05-15:05	Workshop on: "Chemical, physical and emotional stressors: Every cardiac disease has a relation with one or many of them" by Sergio Mejia Viana, St Bernard's Hospital, Gibraltar
5:05-15:35	Long-term relative survival study after surgical aortic valve replacement in patients with intermediate risk Alexander Manché, Mater Dei Hospital, Malta
5:35-16:05	Early vascular aging (EVA) and lifestyle-based modulators (ADAM) of the vascular aging trajectory throughout life – preliminary results of a community-based registry
	Telmo Pereira, Coimbra Health School, Portugal
	Network & Refreshment Break: 16:05-16:20
6:20-16:50	Lung ultrasonography for detecting fluid overload in intensive care patients early after surgery: A preliminary study Maja Karaman Ilic, General Hospital Sveti Duh & Josip Juraj Strossmayer University of Osijek, Croatia
	Effect of low-level electrical stimulation of the arotic root ventricular ganglionated plexi on electrical and structural remodeling in dogs
6:50-17:20	with heart failure
	Hongtao Wang, Xi'bei hospital, China
	Application of cardiovascular virtual endoscopy: A pilot study on roaming path planning for the diagnosis of congenital heart diseases in
7:20-17:50	
7:50-18:20	Yao Liping, Xinhua hospital Affiliated to Shanghai Jiaotong University School of Medicine, China How risk assessment fool guides management of patients of cardiovascular diseases
	Syed Raza, Awali Hospital, Bahrain Panel Discussions
	Day 3 June 13, 2018 Wednesday
	20,0 2000 20,2220 1100000000,
	Keynote Forum
10:00-10:40	Keynote Forum New classification of cardiomyopathy
10:00-10:40	Keynote Forum
	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:55
essions:	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:53
essions:	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:5: Session Introduction To be updated soon air: To be updated soon
essions: ssion Chair: ssion Co-Ch	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:5: Session Introduction To be updated soon air: To be updated soon Coronary artery calcification in patients diagnosed with severe mental illness: An epidemiological study
essions: ssion Chair: ssion Co-Ch	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:5 Session Introduction To be updated soon air: To be updated soon Coronary artery calcification in patients diagnosed with severe mental illness: An epidemiological study Pirathiv Kugathasan, Aalborg University Hospital, Denmark
essions: ssion Chair: ssion Co-Chi 0:55-11:25	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:5 Session Introduction To be updated soon Coronary artery calcification in patients diagnosed with severe mental illness: An epidemiological study Pirathiv Kugathasan, Aalborg University Hospital, Denmark Atrial fibrillation (AF) detection from photoplethymography (PPG) based on pattern analysis
essions: ssion Chair: ssion Co-Chi 0:55-11:25	Keynote Forum New classification of cardiomyopathy Galal Eldin Nagib El-kilany, Gulf Medical University, UAE Network & Refreshment Break: 10:40-10:5 Session Introduction To be updated soon air: To be updated soon Coronary artery calcification in patients diagnosed with severe mental illness: An epidemiological study Pirathiv Kugathasan, Aalborg University Hospital, Denmark
