

31st Annual Cardiologists Conference

June 17-19, 2019

Rome

Day 1 | June 17, 2019 | Monday

08:00-08:15 **Registrations**

08:15-08:25

Opening Ceremony

Keynote Forum

08:25-08:35 **Introduction**

The potential role of a unique, simple, quick, accurate, inexpensive, routine evaluation of Autonomic Nervous System(ANS) Sympathetic(S) and Parasympathetic(P) activity in Cardiovascular Diseases(CVD)

Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

08:35-09:20

Is Ranolazine the best pharmacologic oral therapy for congestive heart therapy to date?

Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

09:20-10:05

Network & Refreshment Break: 10:05-10:20

10:20-11:05

The pharmacogenomics of essential hypertension: Role of G protein-coupled receptor kinase 4

Pedro A. Jose, The George Washington University School of Medicine & Health Sciences, USA

11:05-11:50

First time IVUS used to detect lesion in tortuous, overlapping and trifurcation of at distal left main vessel

AM Thirugnanam, Ipcard Cardiac Care Center, India

Sessions: Clinical Cardiology | Heart Diseases | Electrocardiography | Nuclear Cardiology | Diabetes & Heart | Women & Heart Disease

Session Introduction

Session Chair: Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

Session Chair: Pedro A. Jose, The George Washington University School of Medicine & Health Sciences, USA

11:50-12:20

Hypertension, albuminuria and fatal stroke long after acute coronary syndrome – the ABC study on acute coronary syndrome

Giuspepe Berton, Conegliano General Hospital, Italy

12:20-12:50

Mass media campaign to improve poor diagnosis and poor medical adherence in atrial fibrillation

Jochen Senges, Stiftung Institut für Herzinfarktforschung Ludwigshafen, Germany

Group Photo: 12:50-12:55

Lunch Break: 12:55-13:55

13:55-14:25

Complementary supportive therapy for symptomatic patients with a left ventricular dilatation and reduced ejection fraction

Mila Jakovljevic, Polyclinic for Cardiovascular Diseases and Prevention, Croatia

14:25-14:55

Ventricular interdependence in pulmonary hypertension

Camelia Nicolae, Carol Davila University of Medicine and Pharmacy, Romania

14:55-15:25

Lung ultrasound for interstitial syndrome development monitoring in cardiac and non- cardiac patients who underwent non-cardiac surgical procedures

Maja Karaman Ilić, Clinical Hospital Sveti Duh & JJ Strossmayer University of Osijek, Croatia

15:25-15:55

Formula for blood flow: New cardiovascular diagnostics method

Mikhail Rudenko, Russian New University, Russia

Network & Refreshment Break: 15:55-16:10

16:10-16:40

Prostaglandin E2 promotes vascular remodeling of the ductus arteriosus

Susumu Minamisawa, The Jikei University, Japan

16:40-17:20

Clinical implications of cardiovascular outcome trials in type 2 diabetes: From DCCT to EMPA-REG

Vasileios Lekakis, Aristotle University of Thessaloniki, Greece

Panel Discussions

Day 2 | June 18, 2019 | Tuesday

Keynote Forum

08:00-08:45

Chemotherapy-induced cardiotoxicity

Eugenio Greco, Fellow of ESC, Italy

08:45-09:30

Using smart ECG t-shirt with AI based arrhythmia detection

Oleksii Vynogradov, Heartin Inc, USA

09:30-10:15

10 years experience of autologous bone marrow derived stem cells delivery in wide spectrum of pathologies (potential role of sympathetic nervous system)

Aris Lacis, University Children Hospital, Latvia

Network & Refreshment Break: 10:15-10:30

10:30-11:15

Current methods to palliate refractory angina and research on the development of collaterals from occluded or tunnellized internal mammary arteries: The point in 2019

Marco Picichè, San Bortolo Hospital, Italy

Sessions: **Cardiac Surgery | Cardiac Nursing | Cardio-Oncology | Pediatric & Geriatric Cardiology | Interventional Cardiology | Hypertension**

Session Introduction

Session Chair: Eugenio Greco, Fellow of ESC, Italy

Session Chair: Aris Lacis, University Children Hospital, Latvia

- 11:15-11:45 Surgery for infective endocarditis
Nicholas Kang, Green Lane Cardiothoracic Surgical Unit, New Zealand
- 11:45-12:15 Combined transcatheter aortic valve implantation and end arterectomy of the ipsilateral internal carotid artery
Mahmoud Fouda, Asklepios Hospital Harburg, Germany
- 12:15-12:45 Pulmonary hypertension: Past, present and future
Eric Fenstad, Minneapolis Heart Institute, USA

Group Photo: 12:45-12:50

Lunch Break 12:50-13:50

- 13:50-14:20 The great masquerader: Pulmonary embolism
Syed Tanveer Alam, UK
- 14:20-14:50 Repair mitral valve disease
Guillermo N. Vaccarino, Hospital Universitario Austral, Argentina
- 14:50-15:20 Retinal fluorescein angiography: A sensitive and specific tool to predict coronary slow flow
Hany Taha Asklany, Minya University, Egypt
- 15:20-15:50 Knowledge about cardiovascular disease is low and stress is highly prevalent among U.S. adolescents and young adults and may
Corynn Branche, David Geffen School of Medicine at UCLA, USA

Network & Refreshment Break: 15:50-16:05

- 16:05-16:35 A rare case of syphilitic aortic aneurysm in the era of modern antibiotics
Jasper Val Ian M. Pablo, Philippine Heart Center, Philippines
- 16:35-17:05 Effect of elevated preoperative HbA1c on outcome of coronary artery bypass grafting
Sushil Kumar Singh, King George's University, India
- 17:05-17:35 Assessment of liver enzymes level in Sudanese hypertensive patients
Sami Mohamed Hamed, Alneelain University, Sudan

Panel Discussions

Day 3 | June 19, 2019 | Wednesday

Keynote Forum

- 09:00-09:45 Blood pressure reduction by enhanced external counter pulsation (EECP) therapy is proportional to degree of hypertension and probably endothelial dysfunction
Darshak Karia, University Health Care System, USA
- 09:45-10:30 Surgical results of Ebstein anomaly based on pathology and techniques
Qingyu Wu, The First Hospital of Tsinghua University, China

Network & Refreshment Break: 10:15-10:30

Sessions: **Case Reports on Cardiology | Cardiology Education and Training | Cardiac Regeneration | Entrepreneurs Investment meet | Devices / CRT / ICD / Surgery | Sports Cardiology**

Session Introduction

Session Chair: Marco Picichè, San Bortolo Hospital, Italy

- 10:30-11:00 Care of the pregnant cardiac patient
Karen L Florio, University of Missouri-Kansas City & Saint Luke's Hospital of Kansas City, USA
- 11:15-11:45 Peripheral nerve injury due to hypertension is aggravated by diabetes
Valéria Paula Sassoli Fazan, University of São Paulo, Brazil
- 11:45-12:15 Is TAVI becoming the treatment of choice in patients undergoing aortic valve replacement with previous patent double IMA
Georges Tedy, Mount Lebanon Hospital, Lebanon
- 12:15-12:45 Hemodynamic management of resistant hypertension: physics and physiology to guide therapy
Francisco J. Chacon-Lozsan, Central University of Venezuela, Venezuela

Group Photo: 12:45-12:50

Lunch Break: 12:50-13:50

- 13:50-14:20 Volumetric overload shocks in the patho-etiology of the transurethral resection prostatectomy syndrome and acute dilution
Ahmed Ghanem, Mansoura University, Egypt
- 14:20-14:50 Hypertensive retinopathy can predict severity of coronary artery disease in hypertensive patients presenting with angina
Hany Taha Asklany, Minya University, Egypt
- 14:50-15:20 Closed mitral commissurotomy : A safe and promising procedure
Sushil Kumar Singh, King George's University, India
- 15:20-15:50 Fetal heart rate extraction from abdominal electrocardiograms through multivariate empirical mode decomposition
Praveen Gupta, Government Polytechnic College, India
- 15:50-16:20 Sepsis induced cardiomyopathy
Ali Al Bshabshe, King Khalid University, Saudi Arabia
- 16:20-16:50 Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia
Segundo Mesa Castillo, Psychiatric Hospital of Havana, Cuba
- 16:50-17:20 Efficacy and safety of the angiotensin II receptor blocker losartan for hypertrophic cardiomyopathy: Systematic review and meta-analysis
Sami Salahia, Ain Shams University, Egypt

Network & Refreshment Break: 16:50-17:05

Closing Ceremony

Note: Tentative Program has been designed with the projected Speakers Names and Titles. Dates and timings in this program are subject to change
